

Dear Representative,

Please bring HB 5974 out of Committee. Presidential minority voters are currently completely, unjustly, and unnecessarily disenfranchised. A vote of 50% plus one of the MI vote for President is sufficient for one political party to take 100% of our Presidential electors. Such a winner-take-all method is necessary when there can only be one winner, but it is not at all necessary when we can have 16 winners—one per district and 2 state-wide. Please protect our minority voters and bring fairness to our selection of Presidential electors.

Thank you for your consideration and service.

Sincerely,

Dr. Lynn Phillips
